Ho Chi Minh City, 05 April, 2014

To Whom It May Concern:

This letter is to certify that JSC “Isotope” has delivered superior quality Co-60 sealed sources of GIK-A6 design to VINAGAMMA irradiator in 2013. Since the installation, sources are safely and successfully used at our center.

The GIK-A6 sources have been delivered on a timely basis in Russian containers YKT1B-160000/4300. This container model was easy to operate. Sources were easy to unload from the container and install to the irradiator. We hope that you experience the same level of satisfaction enjoyed by us during our interaction with JSC “Isotope”.

If you have any questions, feel free to contact me.

Mr. Tran Khac An.
